Curriculum Vitae

Methusela Enoch

Phone: 0110 440 006

Email: methuselahreynarld@gmail.com

Location: Kilifi, Kenya

Objective

Passionate and detail-oriented Software Engineer with hands-on experience in designing, developing and deploying modern web and mobile applications. Skilled in building scalable, user-friendly digital solutions using technologies such as React Native, Django, Supabase, C#, Java and Kotlin. Dedicated to continuous learning, clean code and solving real-world problems through technology.

Technical Skills

• Programming Languages: JavaScript,Java, C#, Python, Kotlin, HTML, CSS

• Frameworks & Libraries: React, React Native (Expo), Django, Bootstrap, Tailwind CSS

• Databases: Supabase (PostgreSQL), Firebase, SQLite, MySQL

• Tools & Platforms: Git/GitHub, VS Code, Android Studio, Postman, Figma

• Core Competencies: Full-stack Development, API Integration, UI/UX Design, Database Design, Mobile App Development, Debugging & Testing

Experience

Web Developer - Kilifi County Government (2025)

• Designed and developed full-stack web applications using Django (backend) and React/Bootstrap (frontend).

• Created RESTful APIs for user authentication, payment systems (MPesa STK Push), and data management.

• Developed responsive and accessible user interfaces compatible across desktop and mobile platforms.

• Collaborated with teams on open-source and client-based projects, ensuring scalability and maintainable codebases.

Web Developer – Kilifi County Government Permit System

2025

• Developed a responsive, database-driven Noise Permit Application System for the Kilifi County Government.
• Implemented dependent dropdowns (Sub-county → Ward → Location) and auto-fetching of user data via ID verification.
• Integrated MPesa payment gateway and automatic PDF permit generation.
• Designed a professional, government-style UI with Bootstrap and custom CSS.

Education

Kisii University (2022 - 2026)

Barchelor's Degree in Software Engineering

Self-Taught Software Engineer (2024)

• Courses completed on freeCodeCamp, Coursera and YouTube (Brocode, Programming with Mosh).
• Specialized in Full-Stack Web and Mobile App Development.

Malindi High School - KCSE (2021)

Projects

• Permit Request System – Django-based web system for applying, approving, and generating noise permits.
• GenSphere App – Social networking mobile app for Android, built with React Native + Supabase.
• MPesa Payment Integration – Secure STK push payment flow integrated into Django web apps.
• AI Crop Yield Predictor – Python-based system for predicting crop yields using machine learning (XGBoost, Scikit-learn).
• Personal Portfolio Website – Modern responsive portfolio hosted on GitHub Pages.

Achievements

- **Winner – Kilifi Tech Innovation Challenge 2024** - Awarded for developing a local government permit automation system.
- **Built and Deployed 3 Full-Stack Applications** using Django, React and Supabase within one year.
- **Recognized as "Top Developer"** in a campus coding competition at Kisii University (2024).
- **Led a 4-person developer team** to design and launch GenSphere within 6 months.
- **Participate in the First Western Region Research Innovation Consortium at Kisii University** where I presernted my EduWell project, an AI Powered mental health chatbot.

Certifications

- **Cancer Image Detection Using Pytorch** - IBMSkillsBuild (2024)
- **Participation for the First Western Region Research Innovation Consortium** - Kisii University(2024)
- **Excel for Data Analyst –** Jenga Elearning(2025)
- **Python Programming Essentials** - Jenga Elearning(2025)

Soft Skills

• Analytical & Problem Solving

• Team Collaboration & Communication

• UI/UX Sensitivity

• Time Management & Self-Learning
